GHA HYDRO ALCOHOLIC GEL

Conforming EN 1500 - 1040 - 1275 - 12054 - 1276 - 1650 - 13624 - 13727 standards
En 14476 : Efficient against Influenza virus type A H1N1/ Efficient against Rotavirus

FOR A QUICK ANTISEPSIS OF SKIN AND HANDS

Biocidal product for human hygiene

DESCRIPTION

GHA disinfects in a step: hand hygiene guaranteed.

Particularly efficient to fight the hospital-acquired infections. With its **antiseptic properties**, it is an indispensable instrument in activity sectors where a perfect hygiene is needed.

It contains **aloès**, known for their softening properties and **Glycerine** especially selected as a moisturizer. After using, GHA leaves a **pleasant sensation of freshness**.

USAGE

GHA hydro alcoholic gel fits to medical, paramedical, veterinary, agrifood, nursery environments.

Recommended when pandemic occurs, in the risks areas.

DIRECTIONS OF USE

Apply the gel on a clean and dry skin. Rub your hands 30s for a bactericidal activity, 1 min for a virucidal effect against H1N1 or Rotavirus.

Do not rinse, do not use any towel.

Use the gel regularly, hands are known to be a vehicle of microbial contamination.

After use, hands are sanitised, **and not sticky**. GHA leaves a pleasant sensation of freshness, without any odour.

ETHANOL, CAS N° 64-17-5 : 65,2% m/m, 652 g/kg
PROPANE-2-OL, CAS n° 67-63-0 : 3% m/m, 30 g/kg

Characteristics

State: gel
Odour: alcohol
pH: around 8
Colour: colourless
Density: around 0.87
